- Creating custom E-commerce themes using WooCommerce.
- Successfully integrated and custom-designed educational, traveling, and newspaper themes.
- Theme customization
- PSD to HTML

Ship to Pathao (Plugin)

· WooCommerce order automation using Pathao API. Pathao is a popular ride and courier service company where merchants or online seller can ship their products to their customers. The "Ship to Pathao" plugin directly takes the order from WooCommerce stores and registers it to "Pathao" without any entry by the seller. An automated process that saves tons of time.

WooCommerce Multistore Plugin

· Connects multiple WooCommerce store orders into a single dashboard using API's.
